KNOWN FOR

Frontline beach

Puente Romano

Old-money villas

The character of Marbella Golden Mile.

The four-kilometre coastal stretch between Marbella centro and Puerto Banús — Puente Romano, Marbella Club, gated villa enclaves and frontline penthouses. Prime supply is structurally limited; values have grown 7–8% per year for a decade.

The local team behind Marbella Golden Mile.

Two villas a kilometre apart can differ by a million euros. Triple L Estates has worked the Costa del Sol since 2001 — we know which streets are the right side of the road, which urbanisations are aging well, and which off-plan releases are worth the wait. Talk to us before you fly down.

WHY INVESTORS RETURN TO TRIPLE L

600+ closed transactions across two decades. Honest about which streets are over-priced, which urbanisations are aging poorly, and which developers actually finish on time. No hidden referral fees, no broker handovers — you speak with the person closing your deal, end to end.
